The Universe Story Calendar by Thomas R. Spiritbringer is a mind bending read that can expand your consciousness even as the universe itself is expanding. In the attempt to tell the story AS OF TODAY this book with its companion calendar reaches to include all times, places, and peoples. Unlike previous stories whose focus on the recurring events, such as the seasons, phases of the moon and planets, this book and calendar highlights that there is never a recurring anything. All is ever new. Nothing stays the same. This is especially significant in the human who is the most recent event in the cosmic story. We reach to tell the story to our young that excites their imaginations while emphasizing how significant each of them are to the story. This is a reference book. One that you will want to have at hand as you try to explain to yourself and others how we came to what we know AS OF TODAY. All previous attempts to talk about time are explained and the reasons they were changed listed. We are now invited to once again change with what we know AS OF TODAY. In this graceful and humble acknowledgement that this is all we know we will reverence the creative process and our ability to know our place in that process.
